Diagram of a beam with a triangular load. The beam has a total length of 24.00m. The load starts at 0 kN/m at the left end and increases linearly to 20.00 kN/m at the right end. The beam is supported by a pin support at the left end and a roller support at the right end. The load is represented by a yellow triangle with a peak of 20.00 kN/m. The dimensions 2.00, 4.00, and 20.00 are marked along the beam length.
